

DRIVEWISE

Mahindra Scorpio-N — Structured Vehicle Knowledge Base

RAG-ready reference created from the uploaded official manufacturer brochure

Purpose

This document restructures brochure information into clear, searchable sections for DriveWise. It is intended to improve retrieval quality while retaining brochure page references and important availability conditions.

Important: Feature availability varies by variant and configuration. The original brochure states that not all features are available on all models and specifications/design may change. DriveWise should prefer variant-specific data when a user names a variant.

1. Vehicle Overview

Manufacturer: Mahindra & Mahindra Ltd.

Model: Scorpio-N

Vehicle type: SUV

Drive layout: The brochure describes the Scorpio-N as a rear-wheel-drive SUV, with selectable 4WD available on applicable diesel 4WD configurations.

Seating: 6- and 7-seat configurations are described; the variant matrix specifically lists a Z8L 6-seater configuration.

Source: brochure pp. 13, 16, 22–23.

2. Engine & Performance

Engine	Capacity	Max Power	Max Torque	Transmission
mStallion TGD _i Petrol	2.0 L	149.14 kW @ 5000 r/min	370 Nm @ 1750–3000 r/min (MT) 380 Nm @ 1750–3000 r/min (AT)	6 MT / 6 AT
mHawk Diesel	2.2 L	128.6 kW @ 3500 r/min	370 Nm @ 1500–3000 r/min (MT) 400 Nm @ 1750–2750 r/min (AT)	6 MT / 6 AT
mHawk Diesel*	2.2 L	97 kW @ 3750 r/min	300 Nm @ 1600–2800 r/min (MT)*	6 MT

*The brochure notes the 97 kW diesel specification as available in Z2 and Z4 Diesel 2WD MT.

The brochure also describes Zip, Zap and Zoom diesel drive modes: Zip for easier/smoothier driving, Zap for SUV performance, and Zoom for a more engaging drive.

Source: brochure pp. 11 and 22.

3. Dimensions, Chassis & Brakes

Dimensions (L × W × H): 4662 × 1917 × 1857 mm, excluding ski rack and antenna.

Wheelbase: 2750 mm.

Fuel tank: 57 L.

Front suspension: Double wishbone with coil-over shocks, FDD and MTV-CL.

Rear suspension: Pentalink with WATT's linkage, FDD and MTV-CL.

Brakes: Ventilated disc front and rear; ABS + EBD is listed across the variant safety matrix.

Boot: Up to 786 litres is claimed with the described third-row double-dump and second-row folding arrangement.

Source: brochure pp. 14 and 22–23.

4. Wheels & Tyres

Z8T / Z8L: 255/60 R18 diamond-cut alloy wheels.

Z8 / Z8S: 245/65 R17 diamond-cut alloy wheels.

Z2 / Z4 / Z6: 245/65 R17 steel wheels (the matrix further distinguishes wheel-cover presentation).

Spare-wheel specification varies by configuration; the brochure lists 255/60 R18 steel for Z8T/Z8L 4WD and 245/65 R17 steel for other listed configurations.

Source: brochure p. 22.

5. 4WD & Terrain Capability

Applicable diesel 4WD configurations use selectable shift-on-fly 4WD and the 4XPLOR intelligent 4x4 system. The brochure lists Normal, Snow, Mud & Ruts, and Sand terrain modes, and describes 4-low and 4-high options.

An electronically controlled brake-locking differential is described as arresting wheel slip to improve traction.

Source: brochure pp. 16–17 and variant matrix p. 23.

6. Technology & Infotainment

Adrenox: Cockpit-domain-controller technology using a Snapdragon SD6 processor; brochure claims 70+ connected-car features.

Displays: 17.78 cm cluster and 20.32 cm infotainment screen are described on the technology page.

Phone/connectivity: Android Auto, Apple CarPlay, GPS navigation, Bluetooth and USB connectivity are described.

Audio: 12-speaker Sony system with 3D immersive audio is advertised; availability must be checked against the variant matrix.

Navigation: Alexa-enabled what3words is described.

Wireless charging: Wireless charger with active cooling is listed for applicable variants; active cooling depends on in-cabin temperature.

Voice control: Alexa is used for supported voice-controlled functions.

Source: brochure pp. 8–9 and p. 23.

7. Comfort & Cabin

Ventilated seats: Driver and co-driver ventilation is described. The variant matrix shows it only on applicable upper variants, so DriveWise must not present it as standard across the range.

Climate: Dual-zone fully automatic temperature control is described, together with rear AC.

Driver seat: 6-way power adjustment is described on the convenience page and listed by variant in the matrix.

Remote functions: Remote engine start and temperature control are described, along with Adrenox Connect functions including geo-fencing and supported sunroof/window controls.

Interior: The brochure describes rich coffee-black leatherette upholstery, a leather-wrapped dashboard and other premium trim on applicable configurations.

Source: brochure pp. 5, 7, 13 and 23.

8. Exterior & Lighting

Highlighted design equipment includes dual-barrel headlamps, sting-like LED DRLs, sequential LED turn indicators, tall stacked LED tail lamps, chrome detailing, roof/ski-rack treatment and R17/R18 wheel options. Exact equipment differs by variant.

Source: brochure pp. 4–5 and variant matrix p. 23.

9. Safety

Feature	Brochure / matrix guidance
ESC	Listed across the variant safety matrix.
Hill Hold + Hill Descent Control	Listed across the variant safety matrix.
ABS + EBD	Listed across the variant safety matrix.
Airbags	Configuration varies by variant: front-only entries exist, while upper variants list front + side + curtain.
Parking sensors	Rear on several variants; rear + front on applicable upper variants.
TPMS	Not universal; listed on applicable upper variants.
E-call & SOS	Not universal; listed on applicable variants.
ISOFIX / i-SIZE	Listed across the matrix.
Auto-dimming IRVM	Only listed on applicable upper variants.
Driver Drowsiness Detection	Only listed on an applicable upper variant in the matrix.

Source: brochure pp. 18–20, 22–23.

10. Level 2 ADAS

The brochure advertises Level 2 ADAS and describes Forward Collision Warning, Automatic Emergency Braking, Lane Departure Warning, Smart Pilot Assist, Adaptive Cruise Control with Stop & Go, and Speed Limit Assist.

ADAS feature	Availability condition stated in matrix
Forward Collision Warning	Applicable ADAS-equipped variant
Automatic Emergency Braking	Vehicles, pedestrians and bicyclists
Adaptive Cruise Control with Stop & Go	AT variant only
Smart Pilot Assist	AT variant only
Lane Departure Warning	Applicable ADAS-equipped variant
Lane Keep Assist	Applicable ADAS-equipped variant
Traffic Sign Recognition	Applicable ADAS-equipped variant
Speed Limit Assist	AT variant only
High Beam Assist	Applicable ADAS-equipped variant
Front Vehicle Start Alert	AT variant only

ADAS disclaimer: The brochure states that ADAS assists the driver and is not a substitute for driver vigilance; the driver remains responsible for safe and attentive driving.

Source: brochure pp. 21 and 23.

11. Variant & Configuration Index

The brochure's variant matrix includes Z2, Z4, Z6, Z8S, Z8, Z8T and Z8L. Available powertrain combinations vary. The separate specification matrix on page 22 shows petrol MT/AT, diesel 2WD MT/AT and diesel 4WD MT/AT availability by variant.

DriveWise retrieval rule: when a question contains a variant, transmission, fuel type or drivetrain, those fields should be treated as hard metadata filters before semantic retrieval.

12. Recommended DriveWise Metadata

Field	Example
brand	Mahindra
model	Scorpio-N
variant	Z8L
fuel_type	Petrol / Diesel
transmission	MT / AT
drivetrain	2WD / 4WD
seating	6 / 7
category	Safety / ADAS / Engine / Comfort / Technology / Capability / Design
feature	Adaptive Cruise Control
availability_condition	AT variant only
source_page	21 / 23
source_type	Official brochure

13. Retrieval Guidance for DriveWise

Priority: Variant matrix/specification table → feature description → general marketing copy. If a general page says the vehicle has a feature but the matrix restricts it to certain variants, answer using the matrix restriction.

Answer pattern: Give the direct answer first, state the relevant variant/configuration condition, then cite the original brochure page. Do not infer equipment for configurations not supported by the brochure.

Source of truth: This knowledge document is a retrieval aid. The uploaded official brochure remains the primary source and should be retained alongside the processed chunks.
